| Office Action Summary  | Examiner   | Art Unit                          |  |  |  |  |
| T. 4441 N. 2 2 2 2 4 1 1   | Duc Truong   | 1711                              |  |  |  |  |
| The MAILING DATE of this communication appears on the cover sheet with the correspondence address<br>Period for Reply  |  |                                   |  |  |  |  |
| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). |  |                                   |  |  |  |  |
| Status   |  |                                   |  |  |  |  |
| 1) Responsive to communication(s) filed on 04 February 2005.   |  |                                   |  |  |  |  |
| 2a) ☐ This action is <b>FINAL</b> . 2b) ☒ This   |  |                                   |  |  |  |  |
| 3) Since this application is in condition for allowar  | nce except for formal matters, pro                               | secution as to the merits is      |  |  |  |  |

Art Unit: 1711

## DETAILED ACTION

The last Office action is hereby withdrawn in view of Applicant's arguments. However, a new ground of rejection is cited herein.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1,3-14,24-31 and 39-42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Blomquist'637.

The reference discloses an energy curable composition comprising a compound having the claimed formulae in the Examples in that n is 2, 3 or 4.

Note that the fluorinated polymerizable compound includes at least one fluorinated alkylene or alkylene ether moiety---(see Abstract and wherein the composition has an absorption loss of less than 0.5 Db/cm at a wavelength of 1550 nm (see col. 3, line 35 et seq.; col. 8, lines 26-28, lines 62-63).

Note also that the reference further discloses a polymeric material and optical elements comprising a polymer or copolymer of an energy curable composition having the same or similar composition of claim 1.

The disclosure of the reference differs from the instant claims in that it does not disclose Y is either O or S nor the O being connected with E component in the claimed formula. That means, it requires an ether linkage.

Application/Control Number: 10/067,669

Art Unit: 1711

However, the reference does disclose the claimed formula in that the only difference is the ether group has been replaced by an ester group having the same functionality.

It would have been obvious to one of ordinary skill in the art to replace said ether group from the formula of the instant claims by an ester group since they have been shown to be effective in a similar system and thus would have been expected to provide adequate results, having the same absorption loss at the same wavelength of 1550 nm. There is no showing of unexpected results derived from said replacement.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081.

The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
